Veliki okvir

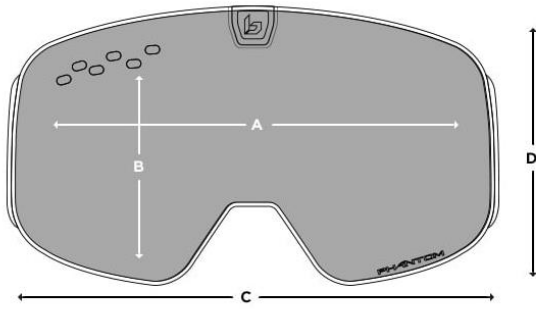

- Mali okvir - ski / snowboard naočare malog okvira će odgovarati deci i omladini, kao i odraslima sa manjim licima. One su uže, kraće i pliće od drugih veličina okvira.
- Srednji okvir - ski / snowboard naočare srednje veličine okvira imaju prosečnu dubinu, širinu i visinu. Okviri srednje veličine će odgovarati većini ljudi.
- Veliki okvir - ski / snowboard naočare velikog okvira imaju veoma širok, visok i dubok okvir koji najbolje pristaje većim licima ili za skijaše i bordere koji traže taj preveliki oversized stil naočara

Mnogi odrasli mogu koristiti više veličina ski / snowboard naočara, ali evo nekih opštih smernica. Jednostavan način razmišljanja o veličini rama je da je često u korelaciji sa veličinom vaše glave, tako da ako nosite malu kacigu razmislite o malom ramu, ako nosite veliku ili izuzetno veliku kacigu, razmislite o većem ramu, ako nosite srednju veličinu kacige uzmite u obzir srednju veličinu rama ski naočara.
